2.4.2 (2022-12-02)

- Improved documentation for `cloud_key` in network services. (Issue #181)
- Fixed return type of operation: `facilities_read` (Issue #191)
- Removed unused request parameter `assigned_at` from `macs_list` (Issue #188)
- Document `macs` `not_valid_before` and `not_valid_after` properties (Issue #189)
- Operation `roles_read` does no longer accept query parameters (Issue #186)
- Added service provider pop name to CloudVC product-offering (Issue #187)

2.4.1 (2022-10-18)

- Fixes `ProductOffering` required fields in `product_offerings_list` operation.

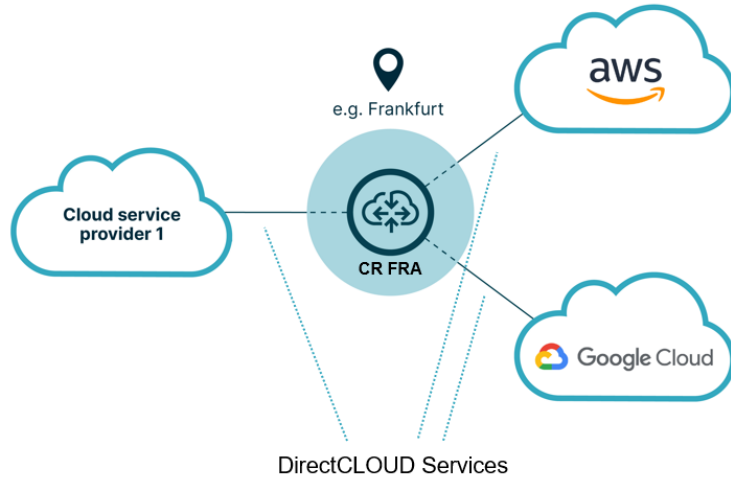

2.4.0 (2022-08-31)

- Added statistics endpoints for ports, connections and network services.
- Introduction of a changelog, to help tracking changes between versions.

SIMPLIFY YOUR IX SERVICES

IX-API provides an interface for provisioning key services at multiple Internet Exchanges (IXs). It supports fully end-to-end automated processes and enables networks to configure, change and cancel services at multiple IXs.

1. Fundamentals on Interconnection

- ✓ What is an Internet Exchange?
- ✓ Networking Basics 0
- ✓ Networking Basics I (Jun)
- ✓ Border Gateway Protocol I (Jul)
- ✓ IX Trends and Innovations (Sep)
- ✓ IX as a Service: basic concepts (Oct)

Welcome to the

 **INTERCONNECTION**
academy

DE-CIX and the Universitat Pompeu Fabra (UPF) launch the global Interconnection Academy, a groundbreaking collaboration aimed at providing a new standard for excellence in interconnection education.

The Academy is designed to prepare professionals with a comprehensive set of technical, operational, and business-related knowledge, equipping them with the skills necessary to excel in the fast-paced world of interconnection. Whether you're a seasoned professional looking to sharpen your skills or a student eager to learn from the very best, you are welcome to the Interconnection Academy.

Learn interconnection from the experts

Who is DE-CIX

DE-CIX provides premium interconnection services and operates several carrier and data center neutral Internet Exchanges in Europe, the Middle East, North America, Asia, and Africa.

The landing page features a woman smiling while working on a laptop, with a dark blue footer containing a network diagram and the DE-CIX logo.

Open Source Working Group

This is a draft agenda: changes are still being made.

Thursday, 25 May 14:00 - 15:30 (UTC+2)

Chaired By: [Marcos Sanz](#), [Martin Winter](#), [Ondrej Filip](#)

A. Administrative Matters

- Finalise agenda
- Approval of minutes from previous Working Group meetings
- Review of action list

B. NGI-Zero: EU-funded framework for supporting FLOSS projects

Niall O'Reilly, Tolerant Networks Ltd

C. From Peering Manager features to standalone library

Guillaume Mazoyer, Peering Manager Lead Developer

D. BIRD 2 - Overview and Future Outlook

Ondřej Zajíček, CZ.NIC

E. Update from Route Server Support Foundation

Niels Raijer, Chairman RSSF

Marcos Sanz Grossón
Head of Global Software
